SUBJECT INDEX

Analysis
  acoustic, 95–120, 124–126, 211–228
  durational, 211–228
  instrumental, 277–309, 324–327
  phonological, 1–58, 59–77, 189–209, 216–225, 229–234, 282–292, 318–324
  prosodic, 301, 327–328
  spectrographic, 229–234
Assessment, 2, 38, 235–254

Chinese, 79–92
Conversational
  analysis, 135, 235–254
  disability, 235–254

Deafness
  adventitious, 333–344
  in children, 255–269
Dysarthria
  adult versus childhood, 311–332
  childhood, 277–309
  in multiple sclerosis, 95–120
Dysarthric speech and listener familiarity, 139–154

Echolalia, 155–184
Electropalatography, 255–269, 277–309, 311–332

Fundamental frequency, 79–92, 333–344

Generalization, 54, 72, 267
Grammar, 133–135

Interaction, 155–184
Intervention, 39–41

Juncture, 121–137

Metalinguistics, 25–28
Metaphon, 1–58
Motor
  control, 14–16
  organization of speech, 313–314
  speech disorder, 303, 277–309

Phonological
  approach and Metaphon, 26–27
  disorder, 1–58, 59–77
  impairment in children, 211–228
  interaction, 155–184
  intervention, 2–3, 59–77, 229–234
  processing model, 315–316
Polysyllabic words, 59–77
Profiling techniques, 277–309, 311–332
Prosodic structure, 121–137
Prosody, 155–184

Repetition skills, 161–184
Rhythm, 121–137

Semantic pragmatic disorder, 235–254
Specific Language Impairment, 189–209
Speech
  in childhood autism, 155–184
  in Down's Syndrome, 121–137
  in multiple sclerosis, 95–120
  perception, 139–154
  planning, 121–137
  timing, 95–120
Stridency errors, 211–228
Swedish, 42–43
Syllable structure, 189–209

Tone
  in Cantonese, 79–92
  in Thai, 333–344
  perception and production, 79–92, 333–344
Treatment, 1–58, 59–77
Tremor, 95–120

Velar stops, 255–269
Verbal dyspraxia, 277–309, 311–332

CLINICAL LINGUISTICS & PHONETICS, 1995, VOL. 9, NO. 4, 347–348

INDEX OF AUTHORS

BLEILE, K. M., and HAND, L.: Metalinguistics, 25
BRAY, M., *see* Heselwood, B. C.
BUDER, E. H., *see* Hartelius, L.

CARTER YOUNG, E.: An analysis of a treatment approach for phonological errors in polysyllabic words, 59
CRAWFORD, R.: Teaching voiced velar stops to profoundly deaf children, using EPG—two case studies, 255
CROOKSTON, I., *see* Heselwood, B. C.

DEAN, E. C., HOWELL, J., WATERS, D., and REID, J.: Metaphon: a metalinguistic approach to the treatment of phonological disorder in children, 1
DEAN, E. C., *see* Waters, D.

FEE, E. J.: The phonological system of a specifically language-impaired population, 189
FOK, A. Y.-Y., *see* Yiu, E. M.-L.

GANDOUR, J., LUPTON, L., HOLASUIT, S., ROBBINS, A., MYRES, W., and MIYAMOTO, R.: A case study of the effect of adventitious deafness on perception and production of Thai tones, 333
GRUNDY, K.: Metaphon: unique and effective? 20

HAND, L., *see* Bleile, K. M.
HARTELIUS, L., NORD, L., and BUDER, E. H.: Acoustic analysis of dysarthria associated with multiple sclerosis, 95
HESELWOOD, B. C., BRAY, M., and CROOKSTON, I.: Juncture, rhythm and planning in the speech of an adult with Down's syndrome, 121
HOLASUIT, S., *see* Gandour, J.
HOWELL, J., *see* Dean, E. C.
HOWELL, J., *see* Waters, D.

ISAAC, K., *see* Mcleod, S.

KLIMACKA, L.: Managing disordered phonological development with the Metaphon approach, 36

LISS, J. M., *see* Tjaden, K. K.
LOCAL, J., and WOOTTON, T.: Interactional and phonetic aspects of immediate echolalia in autism: a case study, 155
LUPTON, L., *see* Gandour, J.

MCLEOD, S., and ISAAC, K.: Use of spectrographic analyses to evaluate the efficacy of phonological intervention, 229
MICCIO, A. W.: Metaphon: factors contributing to treatment outcomes, 28
MIYAMOTO, R., *see* Gandour, J.
MOGFORD-BEVAN, K., *see* Willcox, A.
MORGAN BARRY, R.: A comparative study of the relationship between dysarthria and verbal dyspraxia in adults and children, 311
MORGAN BARRY, R.: The relationship between dysarthria and verbal dyspraxia in children: a comparative study using profiling and instrumental analyses, 277
MYRES, W., *see* Gandour, J.

NETTELBLADT, U.: The Metaphon approach to phonological therapy from a Swedish perspective, 42
NORD, L., *see* Hartelius, L.

REID, J., *see* Dean, E. C.
REID, J., *see* Waters, D.
ROBBINS, A., *see* Gandour, J.

TJADEN, K. K., and LISS, J. M.: The role of listener familiarity in the perception of dysarthric speech, 139
TYLER, A. A.: Durational analysis of stridency errors in children with phonological impairment, 211

WATERS, D., REID, J., DEAN, E. C., and HOWELL, J.: Metaphon re-examined: a reply to the commentaries, 49
WATERS, D., *see* Dean, E. C.
